[redacted] pointed out that the daily sales reports for the week of November 22-26, 1971, disclose that LANGSETH made contacts in Colorado Springs, Col., the entire week and only two sales were made during the entire week, one sale each on Monday and Tuesday and no sales for Wednesday, or Friday. [redacted] further pointed out a notation on the sales report for November 26, "8 demonstrations, each day will produce success," which is an indication LANGSETH was not making sufficient sales as indicated by the number of contacts on the sales reports. [redacted] opined that the daily sales reports could be "easily faked." [redacted] further pointed out that there is normally a five-day differential in the date of the daily sales report and the day it is received at the office in Irwin, Pa., however, the daily sales report for November 24, 1971, was received at the local office on December 2, 1971.

[redacted] said that LANGSETH resigned for personal reasons, however, any additional information could be obtained from [redacted] in Scottsdale, Ariz.

[redacted] advised that he had been an acquaintance of JASON THOMAS LANGSETH for many years, both in San Jose and in the Los Angeles, California area. He stated that on several occasions, he had assisted LANGSETH and had loaned him money in the past.

He stated that only after it was clear to him that LANGSETH was not going to repay him money for which he had previously provided, did he make an effort to retrieve his funds through the Bankruptcy Courts and is making this information available to the FBI.

He stated that in his own mind, he is certain that LANGSETH is in fact the individual known to the FBI as D.B. COOPER.

He stated that he and LANGSETH had discussed this matter on many occasions and LANGSETH advised him that the amount taken in this hijacking was \$204,000. He further advised during conversations with LANGSETH in the past, he indicated that his goal in life was to commit the perfect crime, one in which the statute would toll, and then he would spend the money and be free.

He stated that prior to the hijacking incident, LANGSETH took skydiving training, to include a considerable amount of night skydiving. He stated during one training mission, LANGSETH hit a tree at night and knocked his teeth out requiring a considerable amount of denture work.

[redacted] stated that he temporarily lost contact with LANGSETH and learned that in about June, 1973 he (LANGSETH) went to Canada. He stated LANGSETH re-appeared in 1975, looking emaciated. He stated that it was very difficult to recognize LANGSETH from the time he left for Canada and when he returned.

He stated that he had also learned that LANGSETH has some savings connection or affiliation with the Toronto Dominion Bank, Toronto, Canada, and that he had been receiving monthly or by-weekly stipends from the Toronto Dominion Bank. He stated that if calculated, the checks received by LANGSETH from the Toronto Dominion Bank would amount to approximately 5 per cent of \$200,000 or the interest, which would be drawing on a large sum of money at the Toronto Dominion Bank.

[redacted] stated that a comparison of the composite photograph made available by the FBI and LANGSETH is practically identical. He stated that LANGSETH today does not appear similar to the composite because of his drastic physical appearance change upon his return from Canada, but that he [redacted] has photographs of LANGSETH prior to his travels to Canada in which a comparison would readily show a very strong resemblance to D.B. COOPER.

[redacted] stated that LANGSETH currently resides at 3510 Moorpark Avenue, San Jose, California, and is employed by the Farmers Insurance Corporation, San Jose, California.

LANGSETH claimed he was employed as a salesman by Abco Chemicals in Colorado Springs, Colorado, and worked the entire day of November 24, 1971, in that capacity. LANGSETH could not recall any specific contacts he made, stating he left [redacted]

b6

[redacted] Colorado Springs, about 9:00 a.m. and then returned about 4:00 or 4:30 p.m. LANGSETH advised that he was required, as part of his employment with Abco, to submit at the end of each week to Abco headquarters, in Irwin, Pennsylvania, records containing dates and names of persons contacted in Colorado Springs, during the previous week.

Investigation at Colorado Springs, Colorado, revealed LANGSETH resided with [redacted]

[redacted] Colorado Springs, from September 16, 1971, through January 11, 1972. LANGSETH maintained checking and savings accounts at the Academy Boulevard Bank, Colorado Springs, but no significant account activity noted with the exception of \$1,200 deposit on December 30, 1971. There was no safety deposit box rented at that bank by LANGSETH.

b6
b7C

[redacted] of the [redacted] Colorado Springs, advised after viewing the artist's conception of UNSUB in this matter, stated that in her opinion it did not resemble LANGSETH.

A copy of LANGSETH's weekly reports were obtained from Abco, Inc. in Irwin, Pennsylvania, and attempts by Agents at Colorado Springs, Colorado, to verify LANGSETH's location on November 24, 1971, proved negative in that some of the addresses listed were not valid and others, although valid, personnel at the various locations could not remember LANGSETH.

On September 5, 1972, NORJAK eye witness [redacted] [redacted] stated after viewing a photograph of LANGSETH that he was not identical to UNSUB in this matter.

b6

SE 164-81

In view of the apparent discrepancy between LANGSETH's age at the time of the hijacking, i.e. 27 years old, and the age UNSUB was thought to be at the time of the hijacking, that of approximately 45 years old, no further investigation will be conducted concerning LANGSETH at this time; however, should any new information come to the attention of the San Francisco Division, which would indicate that LANGSETH should be reinvestigated as a suspect in this matter, San Francisco is directed to advise Seattle of this new information and conduct investigation deemed appropriate.

On November 24, 1971, Northwest Airlines Flight 305 Portland, Oregon to Seattle, Washington was hijacked by a white male, mid-forties, 5'10" to 6'0", 170 to 180 pounds, olive complexion, Latin appearance, dark brown or black hair. On arrival in Seattle, the hijacker demanded and received \$200,000 and parachutes and the aircraft departed Seattle headed in a southerly direction and the individual parachuted from the aircraft.

Extensive investigation since the incident in November, 1971 has failed to identify or locate the subject.

During January, 1977, [redacted] Attorney at Law, b6 San Jose, California, advised that during conduct of a bankruptcy b7C investigation, the name Jason Thomas Langseth came to his attention. He stated Langseth filed for bankruptcy in July, 1976, [redacted] He stated during his investigation, an individual named [redacted] [redacted] of Langseth, came to his office and advised that Langseth had funds in the Toronto Dominion Bank, Toronto, Canada. He stated [redacted] further advised that he believed that Langseth was one in the same of an individual who hijacked a Northwest Airlines Flight 305 in November, 1971, later known as D. B. Cooper.

[redacted] stated he confronted Langseth with this allegation and Langseth denied any association with the incident and stated that the FBI had previously exonerated him from the act.

[redacted] San Jose, California, was interviewed and confirmed information provided by [redacted] and was confident in his own mind that Langseth bore a striking resemblance to the subject who hijacked the aircraft.

He further confirmed the information he had concerning banking at Toronto Dominion Bank, Toronto, Canada, and in fact, Langseth had received funds over the years which, if totaled, would have amounted to in excess of \$200,000.

[redacted] stated he was aware of the fact that Langseth had been previously interviewed by the FBI, but he stated that photographs, the fact that Langseth was an expert paratrooper, and had done considerable night diving prior to the hijacking, led him to believe that Langseth was, in fact, identical to the hijacker.

It should be noted the Langseth was, in fact, interviewed by the FBI, Los Angeles, California, in February, 1972. Langseth at that time was described as a white male, 5'10" to 6'0", 165 pounds, medium build, hair black, eyes blue, born August 3, 1944, place of birth Borger, Texas, former paratrooper, U.S. Military.

Investigation conducted by the FBI and display of photograph to eye-witnesses at the incident could not identify Langseth as being identical to the subject in this matter. It should be noted, however, that investigation to confirm Langseth's presence during November, 1971, was unsuccessful.

SUB 327

Sug 327

Re San Francisco airtel to Seattle dated 9/12/77
and Legat, Ottawa, letter to the Bureau dated 10/11/77.

For the information of the Bureau and Legat, Ottawa, on August 18, 1977, LANGSETH was interviewed in Cupertino, California. He initially consented to answer questions, but later declined based on the advise of his attorney. Prior to terminating the interview, LANGSETH advised that he would be willing to assist in any way in this investigation and would consent to taking a polygraph examination if desired.

LANGSETH has been thoroughly investigated in this matter, however, his exact location on November 24, 1971, is unknown. During that week he supposedly was in Colorado Springs, Colorado, working for Abco, Inc., as a salesman. However, a review of his daily sales reports indicate numerous fictitious contacts in that the establishments do not exist or the persons contacted do not exist and all those institutions contacted which were listed and could be identified denied knowing LANGSETH. It was thought at the time the daily reports were reviewed that LANGSETH was merely falsifying his daily report to cover up non-work related activities or that his daily reports which were made up by LANGSETH after the fact were simply not accurate because of LANGSETH's poor memory.

The following investigation was conducted by
SA [redacted]:

AT SAN JOSE, CALIFORNIA

On January 19, 1979, [redacted] San Jose, California, who represents JASON THOMAS LANGSETH, was contacted concerning his client taking a polygraph examination in connection with the FBI's investigation of the airline hijacking which occurred in 1971. KLEIN stated that he would consult with the other members of his office and his client and inform the FBI of his client's decision.

On January 29, 1979, Mr. JASON LANGSETH, 7291 Coronado Drive, Cupertino, Calif., telephone number 255-3500, contacted the San Jose Resident Agency of the FBI and advised that in January of 1970 or 1971 he was interviewed by two FBI Agents at Century City, California. At that time he provided these Agents with "all of the details". LANGSETH advised that he has been "bothered by Agents ever since and if it doesn't stop he will get an injunction or sue".

LANGSETH stated emphatically that he does not want to be contacted by the FBI.

On January 31, 1979, [redacted] LANGSETH's attorney, advised that he concurs with his client's position concerning further contact with the FBI and has advised his client not to take a polygraph examination concerning his exact location on November 24, 1971 or the aircraft hijacking.

[] claimed to have known from friends in the FBI that LANGSETH had been a suspect in the D. B. COOPER case. [] claimed to have information concerning LANGSETH, the source of which [] would not divulge, as follows:

Approximately one year before the D. B. COOPER hijacking, LANGSETH received training in free fall parachuting, and approximately six months prior to the hijacking, received training in night free falls. Additionally, after the hijacking, LANGSETH periodically received checks from a Canadian trust company in a substantial amount. LANGSETH had an alibi at the time of the hijacking that he was with his brother in New Mexico, which the brother did not corroborate.

[] advised that from his personal knowledge, LANGSETH [] approximately six months prior to the hijacking, and that approximately a year after the hijacking, [] saw LANGSETH flashing a lot of money around. [] thought that was strange because LANGSETH was always in bad financial condition because he regularly lost jobs due to an alcohol problem.

[] claimed that from what he knew of the FBI investigation, the FBI eliminated LANGSETH as a suspect because the FBI's records showed LANGSETH was either 20 or 30 years too old or too young. [] stated that the FBI's records as to LANGSETH's date of birth were erroneous.

LANGSETH presently attends an Episcopal Church in Campbell, which is just off Winchester Street, and worked with the FARMERS INSURANCE GROUP in either Campbell or San Jose, California, with a person named []

Prior to viewing the Unsolved Mysteries television show, [] had not thought of LANGSETH in connection with the D. B. COOPER case for several years. Prior to the television show, [] had never seen an artist's rendition of D. B. COOPER at the time of the hijacking. [] however, saw the artist's rendition on Unsolved Mysteries, and immediately recognized the artist's rendition of D. B. COOPER as being LANGSETH. Synopsis: To set phase II leads for investigation and collection of DNA samples for submission to the Laboratory, DNA 1. This case remains the only unsolved hijacking in the United States, and is commonly referred to as the "D.B. Cooper" investigation. Items collected should be forwarded directly to the Laboratory, DNA 1, Attention [redacted]. The EC should be uploaded to SE 164A-81-DNA.

Enclosures: For each receiving office is one case information sheet. This information is also available to be emailed to any RA Agents who do not receive the enclosure.

Details: Over the years, over one thousand possible subjects meriting subfiles have been processed by Seattle with the assistance of virtually every Field Division. Most, opened in the initial stages of the investigation, were quickly eliminated, some required extensive investigation to eliminate, some remained of interest and could not be included or excluded through normal

Re: SE 164A-81-DNA, 07/29/2004

means. To date, the hijacker of Northwest 305, who parachuted from the aircraft with the \$200,000 ransom, has not been identified. This case remains the only unresolved airplane hijacking in U.S. history. Although it is very likely that the hijacker did not survive the jump, it remains a possibility. If currently alive, the hijacker would likely be in his mid-70's. As hijacking was a capital offense at the time, DOJ has recently again advised that no statute of limitations exists.

For the information of VCMOS and receiving offices, a recent resubmission of an item connected to the UNSUB has resulted in recovery of male nuclear DNA. This DNA was suitable for entry into CODIS and for identification and elimination. Seattle has identified the below individuals from which a DNA sample is desired to process a comparison.

A review is being conducted in Seattle to identify possible candidates for DNA comparison. It is anticipated that only a very small minority of the original suspect pool will qualify for this DNA project. Phase II of this review involved the completed review of subject subfiles 1-500.

Due to the extensive and counterproductive media coverage that, in some cases, may result from these contacts, all offices are requested to exercise discretion in dealing with these leads. Some of these suspects may have known they were considered a person of interest, others may not. Likewise the families may, or may not be aware. In cases where the suspect is alive, oral swabs should be solicited. In cases where the subject is deceased, all methods to include hair from shavers, brushes, salvia from postage stamps, etc. should be considered. In those cases where recovery of these items are not possible, obtain proper death and burial records. Contact Seattle case agent before asking family members for any exhumation authority. In the event the suspect, and/or family, cannot be located, receiving offices should set out appropriate leads to follow up with an information copy to Seattle.

Obtain samples by one of the following methods, in the following order of priority:

1. Oral swabs from suspect (best)
2. Toothbrush, shaver, brush, comb belonging to suspect, or envelope with saliva on flap or stamp (second best).
3. Oral swabs from both surviving parents (third best).
4. Oral swab from two of suspect's natural children. (fourth best).

To: Criminal Investigative From: Seattle
Re: SE 164A-81-DNA, 07/29/2004

All family or possible suspects contacted should be advised that this is merely another investigative step following advancement in technologies. No mention of the recovery of DNA evidence should be made. Care should be given so persons contacted are not lead to believe that they or their family member are a suspect of great interest in this case. Unless specifically requested in lead, no interviews are needed at this time, other than appropriate FD-302 to document DNA samples. Media discussions should be avoided. Refer any media inquiries without comment to the Seattle Media Coordinator, SA [redacted] [redacted] at [redacted] Any follow up leads to obtain these samples should be set by receiving offices with a copy to Seattle.

b6

b7E

If anyone is uncooperative with this process, advise Seattle.

Phase II unresolved suspects:

1. JASON T. LANGSETH (SUB 327) SSN 525-52-5941 DOB 8/3/1934
Caution - May Be Uncooperative Due to Prior Contact With FBI

98584 Last known address: 905 Fogarty Ave, Shelton, Washington (10/2003)

LANGSETH was originally identified as a suspect based on information received from two individuals. He resembled UNSUB at the time, has military jump experience, and reportedly discussed committing the "perfect crime" prior to the hijacking. LANGSETH was only partially cooperative during his interviews in 1972 and 1977, and uncooperative when contacted in 1979 and ultimately refused to answer further questions or take a polygraph examination. Alibi information he provided concerning his work activities and travel during November 1971 was proven at least partially false. He was last contacted in January 1979 while living in Campbell, California. Following that contact, LANGSETH retained an attorney and refused a polygraph. In 1993, LANGSETH was again identified as being the UNSUB by an another associate who had viewed an "Unsolved Mysteries" segment about this case. Contact Seattle Case Agent if further details are desired.

Due to the passage of time, it is possible that LANGSETH will now cooperate with a DNA sample.

2. FRED ANGELO CATALANO (SUB 395) SSN 063-30-8696 DOB 7/25/1935.

Synopsis: DNA sample obtained from JASON T. LANGSETH

Reference: SE 164A-81-DNA Serial 26

Package Copy: Being forwarded under separate cover are two cotton swabs taken from JASON T. LANGSETH identified as 1B7, Barcode E03674095.

Enclosure(s): For Seattle is one original and one copy of an FD-302 concerning the collection of oral swabs from JASON T. LANGSETH and a 1-A envelope containing his current criminal history and his photograph from the Washington State Department of Licensing.

Details: Referenced serial requested a DNA sample from JASON T. LANGSETH. Two oral swabs were obtained from LANGSETH on December 3, 2004. LANGSETH was observed to have just smoked a cigarette and admitted to eating oatmeal prior to giving the sample. LANGSETH was cooperative and freely provided the sample. LANGSETH could be contacted again if the food or tobacco affected the sample. LANGSETH also offered to provide blood if necessary.

The laboratory is requested to conduct the necessary examinations on the enclosed oral swabs. Olympia has covered the lead in referenced serial.

Specimens:

The specimen listed below was received in the DNA Analysis Unit I:

K2 Buccal swab from JASON T. LANGSETH

This report contains the results of the DNA analyses. The results of additional FBI Laboratory examinations are the subjects of separate reports.

Results of Examinations:

Deoxyribonucleic acid (DNA) was isolated from specimen K2 (LANGSETH) and subjected to DNA typing by the polymerase chain reaction (PCR) at the amelogenin sex typing locus and the nine (9) short tandem repeat (STR) loci of the AmpFlSTR® Profiler Plus™ ID PCR Amplification Kit. The DNA typing results are detailed below.

AmpF[®]STR[®] Profiler PlusTM *ID*

SPECIMEN	D3S1358	vWA	FGA	D8S1179	D21S11	D18S51	D5S818	D13S317	D7S820
K2	14, 15	17, 18	18, 25	13, 13	30, 31	14, 16	11, 12	8, 9	10, 10

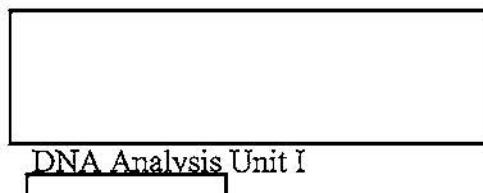

The STR typing results from specimen K2 were compared to the STR typing results from specimen Q40/Q41 (combined for analysis) [submitted under FBI Laboratory Number 010904012 HL MD and reported in FBI Laboratory report dated April 2, 2002]

Based on the STR typing results, specimen K2 (LANGSETH) is excluded as a potential contributor to the mixture of DNA obtained from specimen Q40/Q41.

No other DNA examinations were conducted.

Remarks:

Upon completion of all the requested examinations, the submitted items will be returned to you under separate cover. In addition to the evidence in the case, any remaining processed DNA from specimens examined by DNA analysis will also be returned to you. The processed DNA can be found in a package marked PROCESSED DNA SAMPLES: SHOULD BE REFRIGERATED/FROZEN. It is recommended that these samples be stored in a refrigerator/freezer and isolated from evidence that has not been examined.
